

BELFAST IS SAVED FROM MASSACRE

Sir Hamar Greenwood Declares Troops and Warships Prevented Civil War.

NO DEAL WITH SINN FEIN

Government Has No Intention of Withdrawing Home Rule Bill, Premier Says.

LONDON, July 26.—Sir Hamar Greenwood, Chief Secretary for Ireland, declared in the House of Commons to-day that the troops and police had shown the sternest impartiality in Ireland and that the presence of the troops and warships had saved Belfast from a possible massacre of thousands and north Ireland from a devastating civil war.

The Secretary stated that eighteen persons had been killed during the disturbances in Belfast and about 200 wounded. Two hundred arrests were made.

Joseph Devlin (Nationalist) contended that the trouble in Belfast had nothing to do with the Sinn Fein controversy, but was entirely due to religious hatred on the part of Protestant workers. He demanded protection for the Catholic workmen. Devlin and James Sexton (Laborite), who supported him, both warned the Government that it was driving the Irish people to desperation. They, together with the other members, appealed to the Government to withdraw the army of occupation, which they declared was causing all the trouble.

Reports that the Government was opening negotiations with representatives of the Sinn Fein for the purpose of reaching a compromise as to the future rule of Ireland were denied in the House by the Premier, when asked by Lord Robert Cecil as to whether the Government was opening negotiations or parleys with any section of Ireland.

The Premier also said the Government has no intention of withdrawing the Government of Ireland bill. On the contrary, it will press the measure forward with all possible speed when the House reassembled after the holiday recess.

DUBLIN, July 26.—The Freeman's Journal prints an article to-day replying to the statement made by Premier Lloyd George to a deputation of the Parliamentary Committee of the Trades Union Congress, in which the Premier declared he was as anxious as any man to see the Irish question settled on a basis acceptable to the majority of the Irish people, and that the Government was prepared to go as far as it could in letting Ireland manage her own affairs if the necessary assurances were forthcoming.

"There is no serious obstacle in the present English Parliament to peace with Ireland," says the newspaper in its reply. "Ireland would welcome peace on a basis of full and free self-government, with one Irish Parliament, and one Irish Parliament only. She is also prepared for war, whether it be for five years, ten years or a century. Which is it to be? Let the English Cabinet answer, and quickly."

Addressing the Premier, the newspaper says:—"We have been betrayed and deceived so often that we are determined not to be betrayed or deceived again. We want not soft soap and promises, but performance."

AS EVIL AS GERMAN. IRISH SAY OF BRITON

Sinn Fein Say Military Fired on Monastery.

BELFAST, July 26.—Dundalk guardians adopted a resolution to-day protesting against "the unjustifiable conduct of the military authorities in firing on the Redemptorist Monastery at Clonard, Belfast, on the claim snipers were located in the building."

The resolution declares that charge "has no foundation to support it" and adds: "We have not yet heard that an outrage such as this occurred in Belgium during the German occupation."

It was directed that the resolution be sent to the Sinn Fein "Ministry of Foreign Affairs" for transmission to the Governments of Europe and America.

Another attempt was made this afternoon to burn the Belfast telephone exchange. Soldiers guarding the exchange extinguished the flames. It is unknown how the incendiaries obtained admission to the building.

Twenty-five thousand persons to-day attended the funeral at Old Castle Meath of Seumas MacCarthy, Commandant of the Irish Volunteers and a relative of Cardinal O'Connell of Boston. MacCarthy was shot by the military. After services at the Kells Church, the procession marched sixteen Irish miles to the cemetery.

The feeling prevailed to-day that the troubles caused by clashes between the Unionist and Sinn Fein factions were over for the time being. Further confidence in the maintenance of continued quietude was given by the action of local organizations in Belfast and other towns in forming volunteer patrols to assist the police.

The northerners among the employees were working as usual in the shipyards to-day and sent deputations to the managements offering to cooperate in the protection of the properties. The southerners made no attempt to return, and it is considered doubtful if they will do so in future, as this, it is felt, would be a signal for the resumption of the strife.

CHIEF KENLON QUILTS AS ENGINEER HEAD

Overruled on Choice of Archbishop as Prayer Leader.

TORONTO, July 26.—Chief John Kenlon of the New York Fire Department resigned as president of the International Association of Fire Engineers at the annual convention here to-day, as a result of a difference of opinion between him and Chief Russell of the Toronto Fire Department over the question of the selection of a clergyman to deliver the opening prayer.

Chief Kenlon, as president of the association, had invited Archbishop McNally of the Roman Catholic diocese of Toronto to officiate, but Chief Russell, as head of the local reception committee, had asked the Rev. H. J. Cody of the Anglican Church of this city. The executive committee decided in favor of Chief Russell's choice. Chief Kenlon then tendered his resignation, but it was not accepted until he had abandoned the gathering and a standing vote had been taken. The vote was 131 for acceptance of the resignation and 108 against.

No U. S. Envoy at Vienna.

VIENNA, July 26.—Presentation yesterday of their credentials to President Sella by the British, French and Italian Ministers leaves the United States the only great power not represented, diplomatically, in Austria.

MEIGHEN IS FACING STRONG OPPOSITION

Mackenzie King Leads Attack on New Ministry.

Special Correspondence to THE SUN AND NEW YORK HERALD.

OTTAWA, July 26.—The political unrest which has prevailed throughout Canada since the close of the war has not been removed by the fusion of the Coalition into a permanent party and the accession of Mr. Meighen to power.

Mackenzie King, who leads the remnants of the Liberal party, has issued a militant manifesto calling for war upon the new Ministry; labor and farmers are showing no cessation of activity, and Mr. Meighen's new ministers, who it was thought would be returned to Parliament unopposed, are likely to be faced by strong opposition.

The situation is being watched by the entire country with a great deal of interest, as the defeat of the new Government members in the by-elections would practically compel Mr. Meighen to appeal to the country in a general election. This the new Prime Minister will do his best to avoid. He realizes that his Government is not popular with the country, that its forces are but poorly organized, and that an election at the present time would involve almost certain defeat. Consequently he will marshal the whole strength of his party to capture the coming by-elections, thereby delaying a general election for at least another year, when his chance for success may have improved.

It is doubtful whether the former elements in the Dominion would welcome an election at the present time. The country is not politically normal. The old historic parties have become demoralized. They have broken into factions and groups, and any new Parliament that would emerge from an election just now would be constituted of such diverse and conflicting elements that stable government would be rendered impossible as a result. This, the best thought of the country realizes, would be fatal to the Dominion's progress at a time when, having regard to the tremendous problems to be dealt with, there is urgent need for sanity and moderation in her government.

MINERS AGREE TO FOLLOW SPA PACT

Pledge Themselves to Promised Coal Shipments and Overtime Work.

By RAYMOND SWING.

Staff Correspondent of THE SUN AND NEW YORK HERALD.

BERLIN, July 26.—The Ruhr coal miners, through their representatives who met to hear Herr Hue, their delegate, report on the Spa conference, went on record as favoring joint action with the railroad and transport unions to prevent coal shipments to any sections of Germany where separatist tendencies have become apparent.

A resolution to this effect was passed after another had been adopted pledging the miners to do all within their power to fulfill the Spa pact and continue shipments to Holland, Switzerland and Scandinavia, with the stipulation that food and living conditions would be improved.

Herr Hue admitted that the coal agreement could only be lived up to with difficulty, but that the German miners must continue overtime labor unless their comrades in other countries were to be estranged.

The outspoken stand of the miners against the separatist movement follows similar candor on the part of the Social Democrats in the Bavarian Diet who, in a debate on the appointment of a French Minister to Bavaria, gave greater emphasis to belief in German union than did Minister-President Kahr.

The bill providing for the disarmament of the civil population will be introduced in the Reichstag this week. The new army bill contains a clause declaring universal compulsory military service abolished and all provisions to the contrary rescinded.

Coal Priority Order Delayed.

WASHINGTON, July 26.—The "New England coal priority order" was not issued to-day by the Interstate Commerce Commission, as had been indicated. It was explained by the Commission that not all provisions of the order had been determined.

JAPS IN BUSINESS ROUSE NORTHWEST

Serious Friction Near, Washington Governor Says.

SEATTLE, Wash., July 26.—Pacific Northwest residents are becoming exercised over increasing prominence of Japanese in business. Gov. L. F. Hart to-day told the House Immigration and Naturalization Committee, which is here investigating the Japanese immigration situation. The Governor said there were prospects of serious friction unless an amicable adjustment would be made.

"Our people are not satisfied with present conditions," Gov. Hart declared. He asserted that the next State Legislature would be asked to pass a bill making more effective a State constitutional provision forbidding ownership of land by aliens, particularly those ineligible to citizenship.

Judge Thomas Burke, pioneer Seattle business man, who has been decorated by the Japanese Emperor, testifying to-day, declared he thought immigration legislation should be approached in a spirit of friendship rather than antagonism toward Japan. He praised the Japanese for their industry and thrift, but said a limit should be placed on the number admitted to this country.

FOR PRESIDENT OF CHILE.

Alessandri Gets Majority of Two in Electoral College.

SANTIAGO, Chile, July 26.—Arturo Alessandri, nominee of the Liberal Alliance for the presidency of the republic, received a majority of two votes over Luis Barros Borgoño, Liberal Unionist, in the balloting of the election yesterday. The final stage in the elections will be reached August 30, when a joint session of Congress will study the result and proclaim the successful candidate.

The long drawn out procedure was embodied in the constitution to meet the old conditions of communication. The newspapers have been urging a change in the present system on the ground that it keeps the country in a state of political unrest for a long period.

JUSTICE FOR RUSSIA KRASSINE'S DEMAND

Continued from First Page.

tions of freedom and liberty. He declared that Russia would be a thousand times worse had not the strictest discipline been enforced and maintained. Krassine, when he left Raval for Stockholm aboard a Latvian steamer, was said to have had with him 6,000,000 gold rubles for Sweden.

JAPANESE IN SIBERIA CONTROL RICH MINES

Indefinite Occupation Result of Military Decision.

TOKYO, July 26.—The decision of Japan to occupy the Siberian littoral until the establishment of a responsible Russian Government which will enable a satisfactory settlement of the Nikolaevsk "massacre," is regarded by the Japanese newspapers as an important development of the Siberian policy, tantamount to indefinite occupation of northern Saghalien and the Nikolaevsk region by Japan.

Newspapers call attention to northern Saghalien island, off the Siberian coast, as rich in gold, silver, coal and oil and the Nikolaevsk region as valuable for its fisheries and forestry.

FRANCE FIXES WHEAT PRICE.

Senate Law Places Limit at 100 Francs a Quintal.

PARIS, July 26.—The Senate to-day adopted a law regulating the price of wheat, the rate fixed being 100 francs a quintal. The law carries amendments requiring approval by the Chamber of Deputies.

It was said the Government expected control of wheat to cease at the end of the year, but refused to include a pledge to this effect in the law. It is intended to continue 80 per cent. milling and adulteration of flour to avoid heavy importations.

POLES STILL RETIRE ON NORTHERN FRONT

In South Report Recapture of Gusiayn From Reds.

By the Associated Press.

WARSAW, July 26.—The Poles are still retiring along the northern front, in the Grodno region, but are putting up a strong resistance as they fall back, according to to-day's official communique from headquarters. In the extreme south the recapture of Gusiayn from the Soviet forces is reported. The statement reads:

"The enemy continued his attack yesterday in the vicinity of Grodno, the Poles retiring but resisting strenuously. The Bolsheviks have occupied Kurnice. Heavy hostile pressure forced Polish retreats west of the River Zelv, along the Sionin highway, and in the region of Radawilow.

"On the Zbrucz yesterday the enemy's attack resulted in the occupation of Volochysk, which the Poles have been defending for a week. In the Volochysk sector in general the heavy attacks have caused the Poles to recede, but to the south of that point they recaptured Gusiayn, which the Bolsheviks had occupied."

Nineteen members of the special British and French missions sent here to look into Poland's military situation and to confer with the Government authorities arrived in Warsaw yesterday. One of the first questions placed before the missions was that of the disposal of war materials for Poland, which have just arrived at the port of Danzig and which the workmen are refusing to unload in order to prevent Poland getting them. The dock laborers and Soviet emissaries in Danzig are distributing anti-Polish propaganda.

LONDON, July 26.—The Bolshevik troops have occupied a number of villages on the right bank of the River Zbrucz, according to a communique issued at Moscow yesterday and received here to-day. "In the Volochysk region," the statement says, "our troops forced the River Zbrucz northward of Volochysk. During the fighting we occupied a number of villages on the right bank of the river, in the direction of Grodno our advance south of the River Niemen continues successfully."

Chauffeurs' Summer Suits

\$18.74

A fitting complement to your car. Cut on a pleated back model, with four patch pockets, flaps and buttons that give a decided air of smartness to your chauffeur.

These suits are made of dark gray durable cloth—and will not readily soil. A comfort to the chauffeur in his engine heated driving position.

CAP TO MATCH, \$2.79

Motor Dusters, \$2.96

Single breasted and made of tan linene.

Fifth Floor, 35th Street, Front

Think What These Tubes Have Done

Every superb performance to the credit of Goodyear Cord Tires is no less an indorsement of Goodyear Heavy Tourist Tubes.

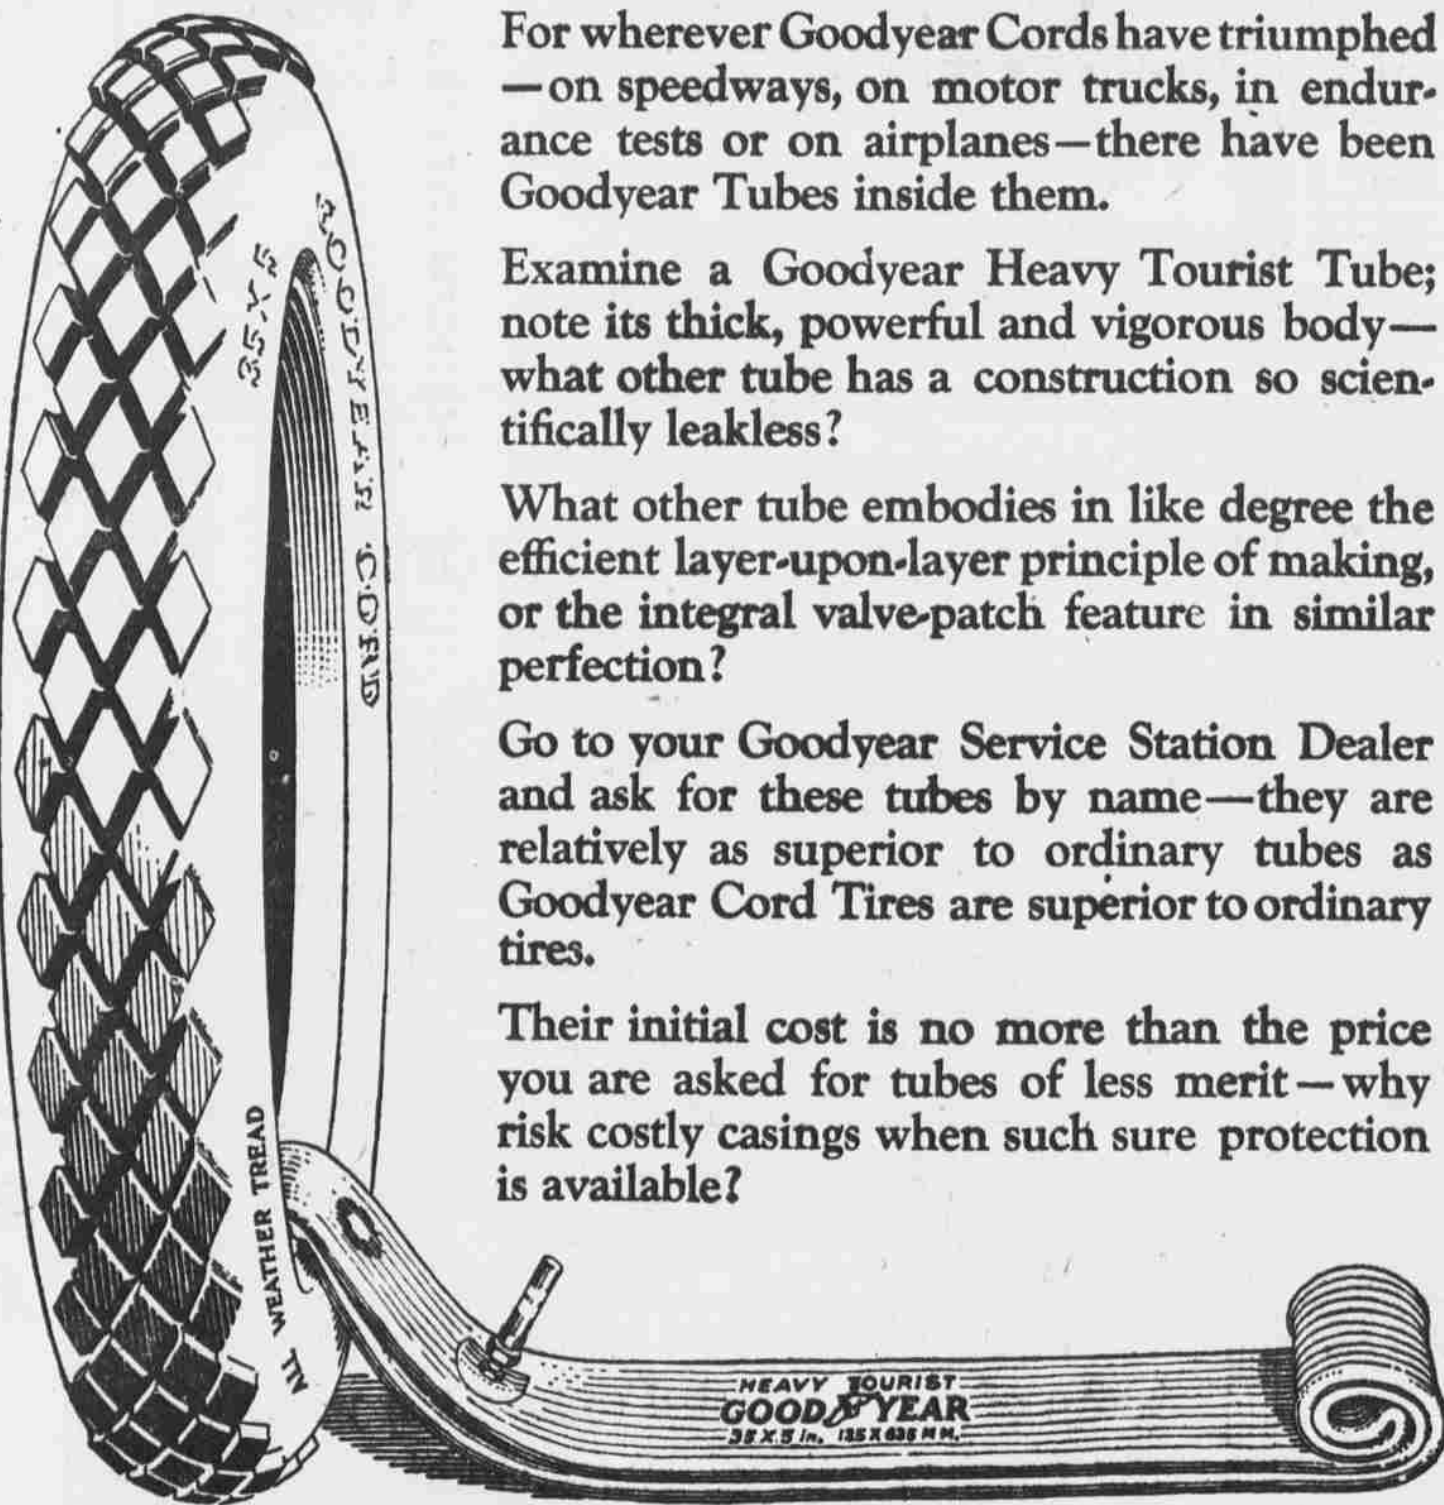

For wherever Goodyear Cords have triumphed—on speedways, on motor trucks, in endurance tests or on airplanes—there have been Goodyear Tubes inside them.

Examine a Goodyear Heavy Tourist Tube; note its thick, powerful and vigorous body—what other tube has a construction so scientifically leakless?

What other tube embodies in like degree the efficient layer-upon-layer principle of making, or the integral valve-patch feature in similar perfection?

Go to your Goodyear Service Station Dealer and ask for these tubes by name—they are relatively as superior to ordinary tubes as Goodyear Cord Tires are superior to ordinary tires.

Their initial cost is no more than the price you are asked for tubes of less merit—why risk costly casings when such sure protection is available?
